This document serves as an agreement to breed (STUD DOG) owned by Melissa Lemoi and _____ (the Bitch) owned by _____ (the bitch owner) for a fee of \$800 () or one pick of the litter puppy (), as agreed by both parties.

The bitch owner will provide a pedigree of the bitch, including OFA and CERF numbers of the bitch and all known ancestors, prior to any agreement to breed Hawkeye. Bitch owner also agrees to provide proof of testing for CNM (Centronuclear Myopathy) and EIC (Exercise Induced Collapse). If a natural breeding is desired, the bitch owner will provide stud owner with certificate, signed by a vet, as proof that the bitch tested negative for brucellosis immediately prior to the bitch being delivered for breeding.

If a cash stud fee is agreed upon, one half of the fee is due at the time of breeding and is non-refundable. The balance due when a litter of 3 or more pups are whelped. Should the litter be smaller than three pups, fee charges are as follows: one pup is \$265.00; two pups is \$530.00; three or more is \$800. The AKC registration application will not be completed or signed by the stud owner until the balance is paid in full. If no litter is produced, a repeat breeding will be due the bitch owner, with the one half deposit applied to the next breeding. Bitch owner agrees to notify stud owner within seven (7) days of the whelping of a litter.

If the breeding takes place in Easton, PA, board will be charged at \$10/day. If the bitch is uncooperative, the stud owner reserves the right, with the agreement of the bitch owner, to have a veterinarian perform an artificial insemination at the expense of the bitch owner. Any other medical expenses that may be necessary for the bitch, either for her health or safety, or to insure the breeding of both animals, including smears or progesterone testing, will also be the responsibility of the bitch's owner. Should a chilled or frozen semen breeding be requested by bitch owner, said owner will be responsible for all expenses incurred with such breeding. Any expenses due are to be reimbursed to the stud owner or the facility handling other services necessary to complete breeding, prior to the release of the bitch to her owner, or release of semen

to the bitch's owner, agent, or veterinarian. There will be a semen release fee charged for all frozen semen breedings.

The bitch's owner agrees that any puppies with obvious conformation or color faults that are not of breeding quality will not be sold unless registered on an AKC Limited Registrations Certificate. Additionally, bitch's owner agrees to notify the stud owner should any of the pups from this litter be diagnosed with any congenital or inherited defects that would be an obvious detriment to the breed. Sign, date, and return to stud owner to confirm breeding agreement.
